Sangani Swamy

LinkedIn: linkedin/sanganiswamy1
GitHub: github/Swamysangani
Email: swamysangani21@gmail.com
Mobile: +91-6302934271

Skills

- **Languages**: C++, C, Python, Java
- **Frameworks**: Scikit-learn, React, Express.js
- **Tools/Platforms:** Figma, HTML, CSS, MongoDB, Node.js
- **Soft Skills**: Problem-Solving, Quick Learner, Team Leader, Adaptability

Internship

Oasis Infobyte — AICTE OIB-SIP Internship Jun 2025 – Jul 2025

Python Programming Intern

- Developed Python scripts for basic automation and problem-solving tasks.
- Implemented core programming concepts using Python and NumPy.
- Built and tested projects using VS Code, Google Colab, and packaged applications with PyInstaller.
  Tech Stack: Python 3, NumPy, PyInstaller, VS Code, Google Colab

Projects

Loan Approval Prediction Web App | GitHub Feb 2026

- Built a machine learning–based web application to predict loan approval decisions and assist financial risk assessment.
- Developed the model using Random Forest with a preprocessing pipeline and deployed an interactive interface using Streamlit for real-time user input and predictions.
- Enabled fast and explainable loan eligibility predictions, improving decision transparency and allowing users to instantly evaluate approval outcomes.

  Tech Stack: Python, Scikit-learn, Streamlit, PyInstaller

Emotion Detection Web App (Streamlit + LSTM) | GitHub Nov 2025

- Built an NLP-based Emotion Detection system using an LSTM model to classify multiple human emotions from text.
- Developed a real-time web application using Streamlit for emotion prediction from text input.
- Created a real-time web app offering accurate emotion prediction with strong performance.

  Tech Stack: Python, Pandas, NumPy, Scikit-learn, TensorFlow, NLTK, Streamlit, Tkinter, VS Code

E-Commerce Product Recommendation System Jul 2025 – Aug 2025

- Built a personalized e-commerce recommendation system that suggests products based on user preferences, purchase history, and item similarity.
- Used Python, Pandas, NumPy, Scikit-learn, and collaborative filtering to generate personalized recommendations based on user preferences.
- Achieved improved recommendation accuracy and personalization through a Hybrid Collaborative Filtering approach combining content-based features and user interaction patterns.

  Tech Stack: Python, Pandas, NumPy, Scikit-learn, Flask (API), Google Colab, Kaggle

Certificates

- AI & ML for real world problem solving – LPU | **Certificate** Aug 2025
- Python Programming – AICTE OIB-SIP Internship| **Certificate** Jul 2025
- JavaScript Bootcamp – CodeWithRandom | **Certificate** Mar 2024
- HTML Tutorial – Great Learning | **Certificate** Feb 2024

Co-curricular activities

- Represented my University in the One India cultural dance program. Apr 2025
- Participated in tree plantation and beach clean-up activities with *All is Well* NGO. Jul 2024

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering (AI & ML); ***CGPA: 7.75*** *Aug 2023 – Present*
- **Aditya Junior College** Kakinada, India
  Intermediate; ***Percentage: 86*** *Aug 2023 – April 2023*
- **Narayana Olympiad School** Kakinada, India
  Matriculation; ***Percentage: 96*** *Jun 20 – Mar 21*
